KIWI+ is an aerosol delivery system operating by means of vibrating MESH technology, joining the best features of compressor and ultrasonic systems in the same unit. In fact, KIWI+ combines the rapidity and efficacy of a compressor system with the quietness and versatility of an ultrasonic system and it can be operated by mains or battery feeding. Extremely easy to use, with KIWI+ all types of medications (except solutions containing hyaluronic acid) can be nebulized efficiently, providing a treatment time of 6 minutes for 2,5 ml of 0.9% NaCl (saline) and very fine particles (MMAD 1,51 μ m), high respirable fraction (over 93%) and with a final residual volume of less than 0.1 ml. The auto-cleaning function of 30 seconds provides a thorough maintenance of the mesh, extending the product life. The smart connector in each mask provides 360° rotation of the masks for nebulizing easily patients confined to bed or babies.

STANDARD CONSUMABLES INCLUDED and REF. NO. for reordering

Built-in vibrating MESH	SP 0279	100-240V 50/60Hz AC/DC adapter	SP 0262/01
Soft-Touch Adult Mask	SP 0281	Mesh chamber	SP 0279
Soft-Touch Pediatric Mask	SP 0282	Carrying Case in EVO	SP 0280
Mouthpiece	SP 0284		
Nosepiece	SP 0285		

TECHNICAL FEATURES

Power Supply	100-240V 50-60Hz by power adaptor (included in the unit)
	3.7V with internal rechargeable Lithium-Iones battery 2600mAh
Recharge Time	Max 4 hours
Power Consumption	2W approx.
Mesh Vibration Frequency	145 kHz approx.
Residual Volume	< 0.1ml
MMAD (EN 13544-1)	1.51 μ m
Respirable Fraction (< 5 μ m)	> 93%
Neb-rate	0.30 ml/min
Duty-Cycle	Non-stop operation (with mains)
Noise Level	38.2 dB (A)
Medication Chamber Capacity	8 ml
IP Code	IP22
Weight	Approx. 150 g (without accessories)
Size (Main Unit)	48 (W) x 127 (H) x 58 (D) mm
Years of Warranty	2
Shipping Carton	12
